THIS IS A MAIL SALE. THERE IS NO FLOOR COMPETITION

ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 percent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 percent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Sales Are Conducted As Follows:

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL — IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuation placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any lots may be inspected prior to the sale. Collector is liable until received by us. Collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

IS THIS YOUR FIRST AUCTION CATALOG?

24th EDITION (1971) GUIDE BOOK, PAPER MONEY 6th EDITION,
"TRENDS" AND OTHER AUCTION RECORDS
USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints (yes we receive some now and then), we want to hear them. Having catalogued over two hundred seventy-five successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 percent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 10c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

1929 FEDERAL RESERVE BANK NOTES

An EMERGENCY ISSUE authorized by Congress March 9, 1933 during the "BANK HOLIDAY" (March 5-12, 1933). The series was issued ONLY 2 DAYS LATER, March 11 by using "NATIONAL CURRENCY" frames, and overprinting the other pertinent information. The act permitted Federal Reserve Banks to issue currency equal to 100% of the face value of U.S. bonds, OR 90% OF THE ESTIMATED VALUE OF COMMERCIAL PAPER, used as collateral. "OR BY LIKE DEPOSIT OF OTHER SECURITIES" is overprinted. Last delivery was on Dec. 21, 1933 — A PERIOD OF ONLY 9 MONTHS! A much scarcer issue than generally realized, particularly in choice condition.

Appears as bright and fresh as the day it was printed! Ticket with note has "GRINNELL 297" (Grinnell sale about 25 years ago — the largest currency sale ever held). \$1,000 1882 GOLD CERTIFICATE

- 224—\$1,000 1882 F-1218, Lyons-Roberts, red seal, very good. Rare.

1882 \$20 TRIPLE SIGNATURE GOLD NOTE

- 225—\$20 1882 F-1188, Bruce-Gilfillan, COUTERSIGNED BY THOS. C. ACTON, Asst. Treasurer of U.S. New York City, new and crisp except for some faint creases, nice margins and nice color. AN OUTSTANDING RARITY, PARTICULARLY SO CHOICE! Friedberg has 1188 & 1189 mixed as 1189 has only 2 signatures and does not compare to 1188 in rarity. The "RARE" is meant for 1188. In this remarkable condition, easily worth 3,500.00

1793 UNLISTED PLAIN EDGE CENT

- 226—1793 S-6, Wreath but UNLISTED PLAIN EDGE! Lot 1400 of 1961 A.N.A. Convention Sale described as "Extremely Fine and most certainly guaranteed genuine. BELIEVED TO BE UNIQUE! EXTREMELY RARE (\$2,500.00)." It is indeed a lovely specimen with attractive smooth surface and even brown color. The record shows that it sold at \$2,00.00 at that sale 9 years ago. A comparison of the 1961 Guidebook with the present edition reveals that top-grade 1793 cents have advanced about four times in value during the intervening years, which should make this UNIQUE SPECIMEN "worth" around 8,000.00

1793 WREATH, LETTERED EDGE UNCIRCULATED CENT

- 227—1793 S-9, WREATH, VINE & BARS EDGE, Lot 1402 of 1961 A.N.A. Convention Sale described as "Well Struck, Perfectly Centered, all beads showing on both sides. A pedigree coin from the Windsor-Chapman Sale, lot # 822, where it was graded and sold as UNCIRCULATED (\$3,000.00)." It is indeed a lovely specimen with attractive steel-blue blending to chocolate color. Lustrous. The record shows it went at a "bargain" price of only \$2,250.00. The fourfold increase in value of top-grade 1793 cents in the time elapsed from the 1961 Guidebook to the present edition, figures out to its current "values" of 9,000.00

Recheck Your Bid Sheet for Errors

228—1793 S-12, LIBERTY CAP from 1961 (Oct.) Penn-Ohio Convention Sale described as "The LIBERTY, date and beading are EXTRA FINE as are the reverse beading, UNITED STATES OF AMERICA, wreath and fraction. The central part of the bust is close to very fine and ONE CENT does not show. Dr. Sheldon states about this variety, "This reverse can be recognized at a glance, as the central part is raised or elevated, so that ONE CENT etcetera, are always weak. If the coin is a little worn, these parts are in many instances entirely gone." He further states that ONLY 20 ARE KNOWN IN ALL. From his description of the best ones in the hands of collectors (best he lists is fine) THIS MUST BE A TOP ONE. The A.N.A. sale also had one which they valued \$2,500.00. This one could be (\$2,750.00)." It went there for \$2,000.00. Top-grade 1793 Liberty Cap cents have advanced about 3½ times since 1961 (1961 compared to present Guidebook). Surely this should be worth about 7,000.00

LIBERTY CAP CENTS 1794-1796

229—1794 S-44, Variety with SHORT BUST, interesting die break from cap through date; reverse edge through N (ONE) & E (CENT), UNCIRCULATED WITH LOVELY BLENDED RED & BLUISH COLOR! Could very well be "FINEST KNOWN!" as acquired. May well bring the owner's valuation of 3,000.00

230—1794 S-31, long Fraction Bar, struck on UNUSUALLY LARGE FLAN, extremely fine with even brown color, variety with hair strands back of ear struck up higher than others resulting in their receiving a bit more friction than the balance. A pedigreed cent from the famous Wurtzbach Collection. Dr. Sheldon values it at 50% more than "common" variety or over 500.00
 231—1796 S-91, Wide Date, fine and sharp bust with LIBERTY & date very fine; extremely fine and sharp reverse, minute edge dinge. The last 1796 Liberty Cap variety. Well worth catalog for v.f. of "common" variety of 215.00

238—1800 S-209, Widest date of year, identifying "suction marks" back of head, under hair ribbons and below chin, UNCIRCULATED BLUISH BROWN. Under a glass, just the faintest evidence of rub. WE BELIEVE THIS TO BE THE "FINEST KNOWN" AS LISTED IN CONDITION-CENSUS AS "CONDITION 55". VERY RARE (R-5). WHAT A COMBINATION, RARITY & TOP-CONDITION! A "Chance Of A Lifetime" as some of the newer dealers sometimes state. Using Dr. Sheldon's scale of values, plus other factors which enter into "what a coin is worth", we arrive at a value of close to 2,500.00

239—1800 S-197, Famous "Q" variety (18Q0), extremely fine, chocolate, very slight edge dinge.	125.00

1865 WITH MOTTO "TRANSITIONAL" QUARTER

350—1865	WITH MOTTO AS IN 1866, BRILLIANT BLUISH PROOF WITH WIRE EDGE! RARITY 7 (only 4 to 12 known) Judd-425. Cataloged \$2,000.00 in 1965 but not included in the 1968 Whitman price revisions (probably due to none being offered during the 3 years period 1965-68) which did include Judd-426 (similar but in copper) with an advance in price of 20%. A similar advance would place this silver specimen at \$2,400.00 in 1968. We feel the new edition (to be published early 1971) will reflect the strong demand and resulting record prices of outstanding rarities such as this, possibly closer to	3,000.00

5¢ SILVER — 1792 "HALF DISME"

840—"1792" Below bust (said to be that of Martha Washington); "LIB. PAR. OF SCIENCE & INDUSTRY." around bust. Rev. "UNI. STATES OF AMERICA" around eagle, "HALF DISME*" below. **UNCIRCULATED WITH FULL LUSTER, PLEASING LIGHT GOLDEN COLOR!** Choicer than most with only the top hair strand not being completely full! **Certainly among the TOP-CONDITION SPECIMENS KNOWN!** In strong demand by collectors of "FIRST UNITED STATES MINT ISSUES" (see page 58 Guidebook), pattern collectors (Judd # 7) and Half Dime collectors. Struck from silverplate furnished by George Washington from his household. **THE FIRST COIN STRUCK AFTER COMPLETION OF THE U.S.MINT!** Struck in October and given to Washington who personally distributed them to his friends. George Washington makes mention of them in his message to Congress in November, 1792. The reason for selecting the smallest denomination silver coin (5c) first to be struck was that the shortage of coins was most acute in the smaller denominations.

Most of the specimens we have encountered over the years have been in the lower grades, with some holed or mutilated, and some in poor to fair condition. This, of course, attests to their extensive circulation at the time. The Guidebook reflects this by pricing them in three grades: good @ \$575, fine @ \$950, v.f. @ \$1600. The 1965 Judd book prices it \$2,000 and the 1968 price revision has it \$2,500. We believe this superior and historical specimen to now be worth 5,000.00

5¢ SILVER — 1794 HALF DIME STRUCK IN COPPER — UNIQUE

841—1794 Judd-16, Struck in copper from regular dies, plain edge. Judd states, "**ONLY ONE KNOWN, FORMERLY IN THE BRAND COLLECTION**". There is another variety known in copper but it has a reeded edge (Judd-15) and is listed as "R-8" at \$3,500 in 1965; the 1968 price revision does not have it (evidently none came upon the market) but using the same ratio of value increase in the 3 year period 1965-1968 (25% for 1792 5c and most others in Judd) the 1968 value for Judd-15 would then be \$4,375; the new Judd book scheduled for 1971 should certainly reflect a similar increase in the last 3 years, placing the present value for Judd-15 to well over \$5,000.00. This UNIQUE JUDD-16 (plain edge) is very fine; it has a tiny rough spot on the eagle (actually a planchet defect). Henry Chapman, in cataloging this identical specimen in the Winsor sale catalog (1895) on page 47 thought this was "probably struck as a pattern mill." It is interesting to note that Judd calls this 1794 a "**HALF DISME**" but calls the 1795 a "**HALF DIME**", If the reeded edge 1794 copper (Judd-15) is worth over \$5,000 then surely this RARER plain edge (Judd-16) is worth over 7,500.00

5¢ SILVER (HALF DIMES) FLOWING HAIR TYPE 1794-95

842—1794 Virtually Uncirculated, only barest friction, attractive bluish golden patina, nice SHARP STRIKE. Easily worth	1,500.00
843—1795 Virtually Uncirculated, only barest friction, attractive light golden patina, interesting die break over TY*, VERY SHARP STRUCK HAIR (rare thus), very faint "mint equalization marks" at extreme left edge (done at mint to bring coin down to its proper weight and save the cost of melting and re-coining it). The reverse is also unusually sharp struck. A remarkable specimen acquired as "Uncirculated". Certainly it is sharper than most "Uncirculated" specimens that we have seen offered over the years. Well worth	900.00
844—1795 Duplicate, bent and straightened resulting in uneven wear, bust and most stars at left very good. lower left stars and right stars as well as most of date not visible (5 in date very good), only part of LIBERTY visible, holed at top; most of reverse very good although some spots are worn smooth. Probably worth somewhere around "fair" price of	82.50

5¢ SILVER (HALF DIMES) SMALL EAGLE 1796-97

845—1796 LIKERTY variety, near Uncirculated, some luster. Acquired 1962 as "VERY RARE, ESPECIALLY IN THIS CONDITION" at a cost of \$2,250.00. Present value?	
846—1796 Very fine and bold date, bust very good but has a few tiny nicks, LIBERTY unevenly worn, some stars at left and at right not visible; eagle and wreath very good but balance of reverse only partly legible, 2 pinpoint nicks. Probably bent and since has been straightened. An elusive date.	250.00
847—1796 OVER 5, PROOFLIKE, SHARP STRUCK WITH LOVELY BLENDED GOLDEN & BLUISH PATINA! Acquired 1962 as "ONE OF THE RAREST OF ALL THE HALF DIMES CONTAINED IN THE GUIDEBOOK". A careful perusal of all our 292 sales leads us to confirm this appraisal of the rarity of this somewhat unappreciated rarity. Perhaps its rarity has not enabled it to be touted to the extent of lesser rarities which more frequently have appeared (and set increasingly high records). We note one of the leading authorities has stated, "I doubt if a dozen true overdates exist". Certainly this is a remarkable specimen and it certainly is a GREAT RARITY for which the owner in 1962 was willing to part with \$3,500.00. Present value?	
848—1797 15 Stars, extremely fine. A choice specimen of this elusive "type" coin. As generally occurs in this variety, the eagle is not sharp and also in back of the bust's neck. Well worth its cost several years ago of \$750; perhaps now closer to	850.00

5¢ SILVER (HALF DIMES) LARGE HERALDIC EAGLE 1800-05

849—1800 LIBERTY variety, a choice extremely fine specimen with traces of luster. Probably now worth its cost (as "About Uncirculated") of	900.00
850—1801 Very fine obverse but reverse closer to fine, unusual and interesting die break on lower portion of obverse. Catalogs fine \$325 and v.f. \$450; this one worth close to	400.00

QUARTER DOLLARS — HERALDIC EAGLE

997—1806	Uncirculated with pleasing blue patina. Usual strike from worn dies but desirable earlier die state with right stars fairly sharp and left stars showing some depth rather than being completely flat as on most specimens seen, the hair strands while not fully struck up are sharper than on most. The reverse is far sharper than generally seen, the eagle's head, motto and stars are fairly sharp; the shield while not fully struck up is still sharper than usually seen. Very difficult to obtain choice. Easily worth over	900.00

QUARTERS — LIBERTY STANDING 1916-1930

Three types — 1916-17 no stars under eagle, 1917-24 stars under eagle, 1925-30 date recessed rather than raised (the reason for the great majority 1916-24 becoming dateless). We note a renewed interest in this series — possibly from the fact that the melting of silver coins virtually precludes the chance of encountering any in circulation. SHARP STRUCK FULL HEAD SPECIMENS SELDOM OCCUR; THE RARITY OF SUCH SPECIMENS VARIES FROM DATE TO DATE IN COMPARISON TO REGULAR STRIKES. SOME OF THE "COMMONER" DATES ARE AMONG THE RAREST IN FULL HEAD. See Guidebook for comments.

1918-S, 8 OVER 7, CHOICE UNCIRCULATED

1122—1918 OVER 17-S, BRILLIANT SLIGHTLY GOLDEN UNCIRCULATED, 80% FULL HEAD! FAR, FAR SUPERIOR TO THE USUAL SPECIMEN ENCOUNTERED STRUCK WITH A SCALLOPED HEAD! "\$3,900 Oct., 1967, Jay — \$4,250 Bartlett" marked on envelope. These are references to prices realized at Stacks' sales containing similar choice specimens. The specimen here offered might be either of those two since it seems to fit their descriptions. Since those prices are several years old, we believe this remarkable specimen could now realize	4,500.00
---	----------

1918-D, 8 OVER 7 ? QUARTER

1123—1918-D Acquired as "OVERDATED 1918-D 25c". THERE IS A PROMINENT SLANTED LINE THROUGH TOP OF "8" but whether it is part of a "7", engraver's scratch in die, or a die break, we cannot be positive. It is a lovely virtually Uncirculated specimen with only the barest trace friction. Most intriguing and if it is verified as an overdate, it IS ASSUREDLY MANY TIMES RARER THAN THE 1918 OVER 17-S'.

1159—1794 FLOWING HAIR, 15 Stars (states), about very fine (a bit uneven in wear) with portions not quite the very fine but other portions much sharper approaching Extremely Fine. RARE. Catalogs low v.f. at only	975.00
---	--------

1160—1795 Overton 46 variety, this specimen has a "Bearded Chin" & "Spiked Throat"; "type" reverse with CA recut in AMERICA, circular die break from M to A in AMERICA extending down past ribbon end to edge (which Overton does not list) very close to the "About Uncirculated" for which acquired. Purchased several years ago as "B-1 6P, SUPERIOR TO BEISTLE PLATE COIN". Beistle called this variety "VERY RARE" when he compiled his book many years ago. Overton in his modern book also calls this "VERY RARE". This is the ONLY 9X8 BERRIES REVERSE: The UNLISTED reverse die break makes it EXTREMELY RARE! Undoubtedly "CONDITION CENSUS" and close to "FINEST KNOWN" (if not actually so as claimed at the time it was acquired). Easily worth over	1,500.00
---	----------

1161—1795 Recut 9 in date, Overton 23 variety, near Uncirculated with lovely bluish golden patina, SHARP STRUCK with most of eagle's breast feathers well defined! Overton states, "VERY RARE" variety. Could very well be "CONDITION CENSUS" as claimed. We feel this "naked eye" variety in this CHOICE condition should be worth at least	2,000.00

1162—1797 Overton 3 variety, extremely fine with bluish golden patina, left stars more sharply struck than right stars, evenly & well struck reverse with only slight wear. **THE RAREST TYPE HALF DOLLAR!** Distinctive reverse with "1/2" BELOW EAGLE. The strong demand is reflected in the present Guidebook having been advanced \$400 over last year's price. Judging from the number of "want lists" containing this date, we feel it will continue to advance in value. This choice specimen was acquired in 1964 at \$4,750; we feel its present value to be 6,500.00

HALF DOLLARS STARTING 1806

Only a small nick in the reverse field (appears to have come from contact with another coin at time it was made, or shipped from mint in sack with other coins), prevents us from calling it a "GEM". Surely this remarkable condition specimen is " CONDITION CENSUS "! Well worth over	250.00

Overton calls it " VERY RARE " while other authorities believe it to be EXTREMELY RARE . This specimen is extremely fine with short light scratch in field (not readily noticeable unless closely examined) there is a die break from left shoulder of eagle's wing to scroll (not mentioned in Overton). --	--------

1352—1860-D Very close indeed to the "UNCIRCULATED" for which acquired, what appears to be slight friction on top strand of hair we believe to be actually due to the striking from a worn die. This is the highly desirable earlier die state with the entire date visible although the "86" is not as sharp as the "1 0" (most seen over the years do not have all the date visible); the UN of UNITED is visible altho not fully struck up (most seen do not have UNI visible); very little evidence of failure of collar at left reverse edge; brilliant with just the faintest rubbing in field. ONE OF THE CHOICEST SPECIMENS KNOWN OF THIS RARITY! Cata- logs low unc. at only	4,500.00

1380—1903 MCKINLEY,	PROOFLIKE, SHARP STRUCK! Even though proofs are known, we hesitate to call this a full proof since it does not have all the criteria generally associated with full proofs. Rather deceptive, unless close- ly inspected by someone familiar with proofs of this coin.	125.00
1381—1916 MCKINLEY MEMORIAL,	PROOFLIKE, SHARP STRUCK! The above com- ments apply to this remarkable specimen.	125.00

\$2½ GOLD TYPES, 1802, 1824

1384—1802 BUST RIGHT,	very little evidence of "1" beneath "2", Uncirculated but under a glass there is visible faint rubbing on obverse, reverse has con- siderable Prooflike surface. RARE. Catalogs low unc. at only	2,250.00
1385—1824 Over 21, CAPPED BUST LEFT,	Uncirculated with some patina. VERY RARE! Undervalued at its low catalog value of only	2,400.00

\$2½ 1829 PROOF

1386—1829 NEW DESIGN BY KNEASS (1829-34) smaller diameter & smaller letters, date, stars but Bust is trifle Larger. GLITTERING PROOF WITH RAISED EDGE BOTH SIDES! THIS IS A GENUINE PROOF AND IS NOT TO BE CONFUSED WITH SPECIMENS WHICH HAVE SOME PROOFLIKE SURFACE WHICH OVER THE YEARS HAVE BEEN SOLD AS PROOFS! A GREAT RARITY WHICH SHOULD BRING A "RUNAWAY PRICE". The "uncirculated, proof-like, some handling marks" Miles specimen realized \$1,750 well over two years ago in Stacks' Oct. 1968 sale. Any value placed on this great rarity must be theoretical but since it is our policy to give some guidance as to value, we will attempt to do so. A search of records for verified proofs of this date indicates it is FAR RARER IN PROOF THAN THE 1863 WHICH CATALOGS 5,000.00.

\$2½ 1832, 1834-39 TYPES

1387—1832 Basically very fine but has porous surface and tiny nick. Catalogs v.f. \$600 but actually worth somewhere between fine price of \$400 and v.f. of	600.00
1388—1834 NEW TYPE, NO MOTTO, virtually Uncirculated, barest friction, pinpoint nick. Catalogs unc.	200.00
1389—1835 Extremely fine, traces of luster. Catalogs	110.00
1390—1836 Brilliant Uncirculated with some Prooflike Surface. RARE THUS! Easily worth	350.00
1391—1836 Another but Larger Date variety, near Uncirculated.	150.00
1392—1836 Still another but Larger Bust variety, very good except top reverse (which is well worn). The lowest catalog listing is fine at	65.00
1393—1838 Different Type Bust, virtually Uncirculated obverse with extremely fine reverse. Low issue.	160.00
1394—1839-C MINT MARK OBVERSE, extremely fine. SCARCE! Catalogs	260.00
1395—1839-D MINT MARK OBVERSE, extremely fine obverse, very fine reverse (rub spot). SCARCE! Catalogs v.f. \$220 & extremely fine	285.00
1396—1839-O MINT MARK OBVERSE, extremely fine. SCARCE! Fewer struck than 1839-C which catalogs	260.00

\$2½ GOLD STARTING 1840

1397—1840-C MINT MARK REVERSE, Uncirculated with orange patina, very faint rub. RARE. The "choice about uncirculated" Miles specimen (Stack's Oct., 1968 sale) realized \$300; surely the catalog value for unc. of \$350 is somewhat low.	500.00
1398—1841-C Uncirculated with orange patina, very faint rub. RARE! Since the 1841 is "impossible" and the 1841-D is seldom offered, the 1841-C is in strong demand by date collectors. The "Extremely Fine" Miles specimen realized \$300 which makes the present E.F. catalog value of \$265 somewhat low and the unc. value of only \$400 very low — probably should be closer to	500.00
1399—1841-D Extremely fine. VERY RARE. Seldom offered. The similar condition Miles specimen over two years ago realized \$425; surely this rarity now worth closer to	500.00
1400—1842-C Very fine. Seldom offered. ONLY 6,729 STRUCK! Acquired 1962 at	250.00
1401—1842-O Extremely fine. Scarce. Undervalued at its low catalog value of only	90.00
1402—1843-D Small (tiny) Date as above, extremely fine and sharp with some luster. Cat.	160.00
1403—1843 Larger Date, extremely fine and sharp, some luster. Catalogs	72.50
1404—1844 Uncirculated with some patina, close examination with glass reveals faint rub. THE VERY LOW MINTAGE OF ONLY 6,784 ACCOUNTS FOR THE FACT THAT IT IS SELDOM OFFERED. Greatly undervalued in catalog at only	250.00
1405—1844-C Brilliant Uncirculated. rather SHARPLY STRUCK! RARE SO CHOICE! In this condition, easily worth	450.00
1406—1844-D Close to Uncirculated as to wear but has edge bump. Cat. E.F.	150.00
1407—1845-D Extremely fine. SCARCE. The similar condition Miles specimen in 1968 realized	270.00

1408—1845-O Virtually Uncirculated, only barest friction, pinpoint nick. VERY RARE! Only offered when outstanding collections such as this (Wolfson 1962, Miles 1968) come upon the market. The Wolfson coin was "just a shade away from Very Fine" and Miles specimen was "a strong Very Fine". Mr. Miles' want-list with us for over a decade contained this date for "unc." but he finally gave up and settled for the "strong Very Fine" mentioned above. This remarkable specimen was acquired in 1961 as "CONDITION CENSUS" at \$650.00. Since we cannot find any record for a comparable specimen in recent years, we are at a loss to know what its current value might be.

1409—1846	Extremely fine and sharp. Acquired as "1846 OVER 1844". Breen in "Varieties of U.S. Quarter Eagles" mentions about traces of recutting. One of the lower "P" mint coinages. Acquired 1962 at \$175 but until this is verified as an overdate, we prefer to call it a recut date. We feel this specimen presently worth at least	100.00
1410—1846-D	Virtually Uncirculated, only barest friction, SHARPLY STRUCK with attractive patina. Acquired 1962 at \$350 as "1846-D OVERDATE". Breen mentions "Two pairs of dies sent" and also mentions faint recutting on 846. This specimen shows some recutting at "4" but considerable evidence of some numeral under the "6" which might have been a "4", or "5". Regardless of what it is, it is one of the sharpest struck specimens we have seen of this date and mint. Even as a plain date, we would not hesitate to value it at	250.00
1411—1847	MUCH LARGER DATE, extremely fine and sharp. Catalogs	75.00
1412—1847-C	Extremely fine and sharp. Catalogs	190.00
1413—1847-D	Near Uncirculated, pinpoint nick. RARE.	275.00
1414—1847-O	Extremely fine and sharp, two tiny nicks. Catalogs low at only	72.50
1415—1848	Uncirculated with pleasing patina and partial WIRE EDGE, close inspection with a glass reveals faint rubbing in field and pinpoint nick. VERY RARE! Acquired 1964 at \$1,000; its present catalog value seems low at only	1,100.00
1416—1848 C	Virtually Uncirculated, only barest friction. RARE. Cat. unc.	325.00
1417—1849	Over 8, virtually Uncirculated, only barest friction.	125.00
1418—1849-D	Near Uncirculated. RARE. Catalogs unc.	325.00
1419—1850	Extremely fine. Catalogs	62.50
1420—1850-C	Virtually Uncirculated, only barest friction. RARE. The Miles "About Uncirculated" specimen well over two years ago realized \$240; current catalog for unc. a bit low at only	300.00
1421—1850-D	Virtually Uncirculated, only barest friction. RARE. The Miles "A nice Extremely Fine" realized \$230; surely this choice specimen now worth over	275.00
1422—1851	Extremely fine with some luster. Catalogs	55.00
1423—1851	Duplicate in very good. Catalogs fine	40.00
1424—1851-O	Famous "DOUBLE DATE" with traces original date to left, near unc.	100.00
1425—1852	Near Uncirculated. Catalogs in only extremely fine at	52.50
1426—1852-C	Very fine. RARE. Catalogs	150.00
1427—1852-D	Virtually Uncirculated, only barest friction. VERY RARE. ONLY 4,078 STRUCK 119 YEARS AGO! The rarity of this date was appreciated by its present owner when he acquired it in 1965 at \$430; surely this rarity now worth well over	500.00
1428—1852-O	Very fine obverse, fine reverse. Catalogs low in fine at only	40.00
1429—1853	Extremely fine. Catalogs	55.00
1430—1854-C	Extremely fine, traces of luster. RARE. Miles A.U. coin realized	330.00

BARGAINS --- SEE PAGE THREE

\$2½ GOLD STARTING 1840 (Cont.)

1431—1855-C Uncirculated with attractive patina, slight rub reverse edge. VERY RARE. Miles A.U. (some light handling marks) specimen realized \$900 over 2½ years ago. Stacks' therein stated "Worth far in excess of the catalog listing for Uncirculated." We fully agree and believe the proper value for unc. should be closer to 1,200.00

1432—1856 Extremely fine and sharp. Catalogs 52.50

1433—1856-C Extremely fine but obverse struck from a worn die (a frequent occurrence—the main "P" mint generally sent out the worn dies to the branch mints — the reason choice, sharp struck branch mints are so difficult to find) giving it the appearance of being very fine (although the lower portion of bust is quite sharp) the reverse is a sharp extremely fine. RARE LOW ISSUE. Easily worth catalog value for e.f. of 235.00

1856-D \$2½ UNCIRCULATED

1434—1856-D GLITTERING ORANGE UNCIRCULATED. As usual with specimens from this mint, the center is softly struck. EXTREMELY RARE DATE & MINT IN EXTREMELY RARE CONDITION! We believe the catalog to be a bit conservative at its listing of only 4,500.00

\$3 GOLD SET NEARLY COMPLETE

A better than usual set which took many years to assemble. IT IS COMPLETE WITH THE EXCEPTION OF ONLY FIVE DATES AND MINTS! We note a steady rise in values for this series and cannot see any reason why the rise should not continue. THE ENTIRE SERIES, ISSUED 1854-1889 DID NOT TOTAL THAT OF A SINGLE DATE IN SOME OF THE \$1, \$2½, \$5, \$10 OR \$20! We believe this series is somewhat undervalued in keeping with its true rarity.

\$5 GOLD — 1798 LARGE 8, 13 & 14 REVERSE STARS

1532—1798 Large 8, 13 Stars reverse. Uncirculated with attractive patina, interesting die breaks at top reverse. WIDE DATE with 8 touching bust, 5 berries. The lowest catalog value listed in Guidebook for Large 8 is \$1,500; surely this one worth closer to	2,000.00
1533—1798 Large 8, 13 Stars reverse but CLOSE DATE variety (1 touches bust, 8 does not) interesting variety struck from shattered dies, die break from below right of date up around left stars, another from top obverse rim down through cap and evidence of die failure in left obverse field; several interesting reverse die breaks, 4 berries on branch, near Uncirculated with much luster, sharper than most seen! RARE. Catalogs E.F. \$1,050 and unc. \$1,500 making this worth	1,275.00
1534—1798 Famous "BLUNDERED DIE" with Large 8 and 14 REVERSE STARS, struck from shattered reverse die with interesting die breaks going several directions. After careful study, we believe this remarkable specimen to be UNCIRCULATED! THE SHARPEST SPECIMEN WE CAN RECALL SEEING AND AN OUTSTANDING RARITY THUS! The highly desirable early die state with left stars fairly sharp although some not fully struck up, only slight beginning evidence of die failure at left edge, even curls above cheek sharp, only tiny spot on turban not quite fully struck up. The reverse is REMARKABLY SHARP STRUCK with only a tiny spot at left corner of shield not fully struck up! Breen in "Early U.S. Half Eagles" calls this "R-6, Rare and a type coin. in demand for the blundered die. The coin is certainly R-6 and likely to remain at that level". R-6 means 13 to 30 coins. Our opinion, based on 38 years as professional numismatists, is that probably not more than 15 or 16 specimens exist (including those impounded in Smithsonian, A.N.S., museums, etc.) in all. Stack's in their catalog of the Miles collection (Oct., 1968) stated in describing the Miles extremely fine coin, "Another rare coin which was lacking in the Wolfson and Pierce Sales." The Miles inferior specimen realized \$1,800 over 2½ years ago; surely this TOP CONDITION SPECIMEN now worth	3,000.00

\$5 GOLD — BUST RIGHT 8X5 STARS, 1798-1806

1535—1800 Medium-size obverse stars, tiny reverse stars, Breen 1-B variety where he states "R-4 Scarcer than formerly believed". Since 1-D variety is "R-2" (about 3 times as many known) this should be highly coveted. UNCIRCULATED SHARP STRUCK, obverse partly Prooflike, reverse MOSTLY PROOFLIKE! Close inspection with a glass reveals some patina in obverse field and top stars not as full as lower stars, tiny spot on head—turban not completely full (which seems to be the case in many specimens seen during our 38 years as professionals). The reverse glitters and is one of the sharpest we have seen! Surely, among the choicest specimens known. Well worth	1,500.00

\$5 GOLD — BUST RIGHT 8x5 STARS, 1798-1806 (Cont.)

1536—1800 Breen 1-C variety with Blundered Reverse Die, M in AMERICA cut over a much wider M—probably from the punch intended for eagles or silver dollars (extra upright shows at right of “real” M). “R-5, possibly low R-6” (VERY RARE). Very good (some scratches, etc. Probably used for jewelry). Well worth	400.00
1537—1802 OVER 1 (nice sharp overdate) very fine and sharp obverse, extremely fine reverse. Catalogs V.F. \$575 & E.F. \$625; this then worth	600.00
1538—1802 OVER 1 (nice sharp overdate) very fine and sharp obverse, extremely fine virtually Uncirculated, only barest friction, SHARP STRUCK WITH CONSIDERABLE LUSTER!	900.00

1539—1804 Small 8, appears to be Breen 3-F variety with tip of 4 recut and bisecting die break, UNCIRCULATED, SHARP STRUCK WITH STARS FULL, WIRE EDGE BOTH SIDES! “R-6, VERY RARE”. In this condition, EXTREMELY RARE! Breen states, “Mintage reported as 30,475, some of them doubtless dated 1803, as this date is a great deal scarcer than any other in the 1800-1807 group, considered merely as a date.” Well worth 1,500.00

\$5 GOLD — BUST RIGHT 7X6 STARS, 1806-1807

1540—1806 Round top 6 (knobbed) very fine and sharp, pinpoint nick. Catalogs	550.00

1543—1809 OVER 8, BRILLIANT UNCIRCULATED, EVERY HAIR STRAND SHARP AND EVERY STAR FULL! WE CANNOT FIND A RECORD OF A SIMILARLY DESCRIBED SPECIMEN IN ALL OUR 292 PREVIOUS SALES GOING BACK SEVERAL DECADES! Desirable early die state with visible portion of 8 quite sharp. The smallest coinage of any year of this type (1807-1812). Well worth	1,200.00
1544—1810 Small date, Tall 5, Breen 2-D variety described “R-6, VERY RARE”. He further states that over 80% of specimens of 1810 are from 1-A dies (Large Date & 5). UNCIRCULATED WITH PLEASING YELLOW-ORANGE PATINA (rescued from some of the modern “scrub & rub” enthusiasts); what appears to be a short light die break near edge, under a strong glass turns out to have intentionally been placed there by the mint after the coin was struck in order to bring its weight down a shade to its proper level and thereby save the cost of melting and recoining — a frequent occurrence in the early days of our coinage. Sharper struck than most we have seen over the years. Easily worth	1,000.00
1545—1811 Small 5, very fine appearing but close inspection with a glass reveals some clever work at “improving” its appearance. R-4, RARE. Catalogs a bit low v.f. at only	450.00
1546—1812 Last year type, extremely fine and sharp, very tiny nick. Cat.	575.00

\$5 GOLD — LARGER HEAD 1813-1829

1547—1813 Uncirculated with considerable luster, all stars fully struck up, close examination with a glass reveals just the faintest “cabinet friction” (from sliding on the velvet in the old-time coin cabinet?). In demand for “type” (the most “reasonable price” date of this type). Catalogs	825.00
1548—1813 Duplicate in very good (Breen lists only one die variety & calls it R-5, VERY RARE).	350.00

1549—1820 Square-base 2, Large Letters, UNCIRCULATED WITH PLEASING LIGHT YELLOW COLOR. STARS FULL, UNUSUALLY DEEP & FULL EDGE DENTICLES! The unc. Miles specimen (Stack's Oct. 1968) realized \$1,400 over 2½ years ago; surely this lovely specimen should now realize closer to 1,750.00

**\$5 GOLD — REDESIGNED, SMALLER PLANCHET &
BEADED BORDERS 1829-1834**

The most difficult \$5 "type" to find as all dates are RARE and several EXTREMELY RARE.

1550—1830 Small 5D., near Uncirculated VERY RARE! in strong demand for "type", as well as date. Superior to the extremely fine, nick in planchet Miles specimen which 2½ years ago realized \$1,600; should realize very close to unc. price of	2,350.00

Breen states "if any others (dies) exist, they may safely be called very rare." Should be worth at least	350.00
1566—1838-D MINT MARK ABOVE DATE, near Uncirculated, much luster. RARE! Catalogs low unc. at only	675.00

\$10 GOLD — 16 STARS (STATES) LARGE EAGLE 1797

1619—1797 10 Stars left, 6 Stars right (Tennessee admitted as 16th state in 1796) Large Heraldic Eagle with 13 stars above (it was decided in 1797 to stabilize stars at 13 stars rather than add another for each new state). Uncirculated al- though point of turban back of forehead curl not full. yellow gold, reverse glittering. Breen 2-C variety with light die break through 7 and stem curved slightly right away from tail. "R-7 BORDERLINE" — Breen (Only 11 or 12 known). Easily worth	2,500.00
--	----------

\$10 GOLD — 9X4 LARGER STARS, LARGE EAGLE 1798/7

1620—1798 OVER 7, 9 Stars left, 4 Stars right, Larger Stars; reverse 13 stars dif-
ferently arranged than above 1797 (actually, an unused die made later in
1797 and altered for the very few struck in 1798). According to "U.S.
Eagles" by Breen "The two 1798 varieties are usually believed to be the
rarest of the early eagles, and it is commonly assumed that the variety
with 6 stars facing is many times rarer than the other one (4 stars facing
— this specimen). Both assumptions are wrong, and the rarity figures
herein assigned will come as a great surprise to many collectors and
possibly a rude shock to some dealers. THERE IS ACTUALLY VERY
LITTLE DIFFERENCE IN THE NUMBERS KNOWN OF THE TWO VARIE-
TIES. They were sandwiched in between the Jan. 4 and Feb. 28 deliveries
of half eagles and are close in time to other mintages known to be of the
EMERGENCY ISSUE, cobbled together from many dies even briefly
usable." Breen lists 900 of the 9X4 struck and 842 of the 7X6 struck and
states. "There are apparently 17 or 18 of the former and at least 13 of the
latter, corresponding almost exactly to the above mentioned C.R. of
1.9% (the exact figures are 2% and 1.7%, which is an excellent fit). We
can even account for the brevity of the issue. Both obverse dies broke
down quickly. If this coinage was executed to fill a rush order, as ap-
pears to be the case, quite likely the remainder of the bullion was paid
for in half eagles." Breen further states, "THERE ARE APPARENTLY 17
OR 18 SPECIMENS IN EXISTENCE. I have checked through over 500 auc-
tion catalogues and this conclusion appears unassailable. AS A DATE,
1798 IS CERTAINLY THE RAREST OF THE 1795-1804 SERIES." After
listing some of the known specimens which are mutilated, those impound-
ed (museums, etc.) and "The other half dozen or so in VF to EF range",
we cannot escape the fact that THIS SPECIMEN IS POSSIBLY "THE
FINEST IN THE HANDS OF COLLECTORS," We have not seen an equal
specimen in all our 38 years as professional numismatists!

This remarkable specimen is GLITTERING UNCIRCULATED, SHARPLY
STRUCK WITH SOME PROOFLIKE SURFACE! In this condition, it is as
rare, if not actually rarer than the 7X6 stars variety which catalogs unc. 8,750.00

\$10 GOLD — 8X5 STARS (HUGE), HERALDIC EAGLE 1799-1804

1621—1799 8 Stars left, 5 stars right (one of the 1799 dollar dies has similar
arrangement) reverse 13 tiny stars differently arranged than 1798. BRIL-
LIANT UNCIRCULATED, SHARPLY STRUCK! A lovely specimen excellent
for date or type. In this remarkable condition, it should surely be worth 2,000.00

1622—1801 Extremely fine wth some luster. Catalogs	950.00
--	--------

1623—1804 UNCIRCULATED, SHARPER THAN MOST SPECIMENS SEEN OVER THE YEARS! Close inspection with a glass reveals faint rubbing. RARE DATE! The very low coinage does not reflect that many were melted at the mint later the same year. Breen states "Only a single pair of dies was used and both obverse and reverse show breakage." This is the very rare highly desirable early die state with only the very beginning of die breakage visible. The eagle, while not quite fully struck up in all respects, IS THE SHARPEST OF ANY SPECIMEN WE CAN RECALL SEEING IN OUR 38 YEARS AS PROFESSIONAL NUMISMATISTS! In this remarkable condition, well worth 3,500.00

\$10 GOLD — HAIR OVER EAR, POINTED BUST, 1838-39

1624—1839 MAJOR TYPE (also rarest type) struck only about a year (late 1838 & early 1839) Large Letters, near Uncirculated. RARE, PARTICULARLY SO CHOICE! Catalogs realistically in Scott 1971 catalog at E.F. \$700 and unc. \$1,100 with notation "VERY RARE IN UNC.". Well worth 900.00

\$10 GOLD — REDESIGNED (MORE PROMINENT EAR, SM. LETTERS, ETC.)

1625—1842 Small (tiny) date, extremely fine and sharp, some luster. Scarce. Catalogs realistically in Scott in E.F. at	100.00
1626—1847 Much Larger Date, extremely fine. Catalogs	65.00
1627—1849 Extremely fine and sharp. traces of luster. Catalogs	65.00

1628—1849 OVERDATE with plain traces of original numeral under 9, near Uncirculated. Listed by Breen as "VERY RARE" and in Scott 1971 catalog as "R7" (4 to 12 known)! Purchased 1959 and valued then at 1,000.00

1629—1850 Normal Large Date, Uncirculated. Close examination reveals usual "bag-marks" (from being shipped from the mint in bags). Scott 1971 catalog states "EXTREMELY RARE IN UNC." and realistically gives it a value of	195.00
1630—1850 SMALL DATE (\$5 punches used in error) very fine. Breen lists as "RARE". Purchased 1959 and valued then at	150.00
1631—1851-O Near Uncirculated. Scott catalog states "VERY RARE IN UNC.." and values unc. at	170.00

1632—1854-O LARGE (HUGE) DATE (silver \$1 punches used in error) near Uncirculated. Not to be confused with usual medium large date. Listed in Scott in E.F. at \$375 and the statement "UNKNOWN IN UNC.". Surely this choice specimen worth over

1633—1855 Extremely fine and sharp. Catalogs	65.00
--	-------

\$10 GOLD — 1846-O OVER 5

1634—1846 OVER 5-O (top point of 5 showing at right top of 6) and listed by Breen as second variety of 1846-O. He states therein (booklet written around 1964) "I HAVE SEEN ONLY THREE OF THIS VARIETY IN ALL". It is also listed in Scott 1971 catalog as "HIGH R7" (4 TO 6 KNOWN)! We believe this to be the discovery specimen as it has a pedigree extending back some years. It is extremely fine with minute contact marks commensurate with this grade (typical of these large soft coins which were transported mostly in bags). The last time it appeared (whence the present owner obtained it) it was valued 2,000.00. Now that it is listed and recognized for what it is, we believe it will take its rightful place AMONG THE TOP RARITIES OF THE GOLD EAGLE SERIES!

1641—1850	About fine obverse but reverse closer to very fine. Catalogs fine	125.00
1642—1852	Smaller date, Uncirculated, superior to most seen as it has very few of the usual "bag-marks" (caused by being shipped from the mint in bags) which characteristically plague these large gold coins. Catalogs	250.00

The ball of the 9 is connected to loop by metal giving it the appearance of an overdate, however we cannot verify as to it being a true overdate, extremely fine and sharp. \$20 GOLD — SAINT-GAUDENS TYPE, ROMAN DATE-HIGH RELIEF

1671—1907 (Roman Numerals MCMVII) struck in HIGH RELIEF (as generally done in ancient coins and modern medals to give "depth" to enhance the beauty) Wire Edge variety. BRILLIANT UNCIRCULATED GEM! Generally acknowledged as our most beautiful coin. IN THIS REMARKABLE CONDITION, IT IS INDEED A "PRIZE" TO OWN AND DISPLAY. Incidentally, as B. Max Mehl would say, "It also earns its interest as an investment". The Miles "gem" specimen auctioned by Stack's over 2½ years ago realized \$1,500.00. Surely this one now worth over 1,750.00

1672—1907 Similar but flat rim variety, appears to be Uncirculated but close inspection reveals some slight friction. In this condition, it should be worth close to 900.00

\$20 GOLD — REGULAR DATE. LOW RELIEF, NO MOTTO 1907-08

1673—1907 Redesigned with regular (Arabic) numerals, low relief (edges higher than center to protect design from wear) motto "In God We Trust" omitted "for artistic reasons". Brilliant Uncirculated with only a few of the usual "bag-marks". Superior to most seen. Soon after these were distributed, they acquired the sobriquet of "Teddy Roosevelt's Godless Coins". Low issue. Catalogs 125.00
1674—1908 Similar type (no motto) Brilliant Uncirculated, choicer than most. Cat. 110.00
1675—1908-D Near Uncirculated with luster. Scarce. Cat. E.F. \$95 & unc. 120.00

\$20 GOLD — 46 STARS (States) & MOTTO 1908-1912

1677—1910 Uncirculated with a few of the usual "bag-marks". Catalogs 85.00

\$50 GOLD — U.S. CONTRACT COINAGE — A. HUMBERT

Leading authorities now accept these as "U.S." coins as the legend on them implies.

1686—FIFTY DOLLS. UNITED STATES OF AMERICA. around eagle, 1852 AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA around outer edge. Reverse has weblike target pattern. Struck only a few days, when the reorganized firm began striking United States Assay Office Of Gold pieces. Extremely fine, sharper struck than most we have seen during our 38 years as professional numismatists. No serious nicks or scratches although it does have some minor abrasions which are characteristic of these large, soft gold coins. A careful check of our previous 292 sales extending back a good many years leads us to the conclusion that this variety is TEN TIMES AS RARE AS THE 1851 REEDED EDGE! We do not know why the catalogs do not reflect this. Close to equaling the condition of the last specimen we had at 4,000.00

Consignment D — Louisiana

HERALDIC EAGLE DOLLARS 1798-1803

This is a continuation of the outstanding collection which started with lot 1848 in our last sale and which we did not have space to finish. We continue with that numbering sequence which ended with lot 1869.

1870.	1799 B-16a?, "Naked-Eye" variety with left corner of U(UNITED) missing. B-16a is listed as having "waves" above date (which this has) but it does not have the "suction marks show between stars". It does have the single die break through OF. About extremely fine (reverse a sharp extremely fine but obverse a bit shy).	350.00
1871.	1799 B-16b, Struck from shattered obverse die resulting in numerous die cracks; two cracks up through OF, extremely fine (reverse sharper being closer to "about uncirculated") luster. Bolender states, "I HAVE SEEN ONLY ONE"! Surely this rarity worth over	750.00
1872.	1799 B-23a, 8X5 STARS, die break between 3rd & 4th star curving around to 7th star, slanting die break through B of LIBERTY, die break through left side of 10th star, waves above date; one die break through O in OF. UNCIRCULATED GOLDEN but close inspection with a glass reveals just the barest rubbing (old-time "cabinet friction"). B-23 is VERY RARE (Rarity 5) therefore this variety is EXTREMELY RARE! Well worth	1,000.00
1873.	1800 B-10a, Very Wide Date, LOW 8, extremely fine. RARE (R-3).	400.00
1874.	1800 B-17, Only 12 Arrows, very fine. Catalogs	240.00
1875.	1800 B-14a, Dotted Date, near Uncirculated, some luster. RARE. (R-3). Catalogs low unc. at only	775.00
1876.	1800 B-18, Comet variety (caused by die breaks through clouds), wide evenly spaced date, near Uncirculated with pleasing patina. Catalogs unc.	775.00
1877.	1800 B-11 AMERICAI variety. Only 2 come this way, B-19 (very scarce) and B-11 WHICH IS EXTREMELY RARE. When Bolender published his book in 1950, he stated, "EXCESSIVELY RARE VARIETY. IT TOOK ME 35 YEARS TO FIND A SPECIMEN!" This choice specimen (near Uncirculated with some luster) surely worth at least	1,500.00
1878.	1800 B-12, SMALL BERRIES (only small berries this date) in addition to having Double-cut R in LIBERTY, lovely virtually Uncirculated specimen with attractive blue patina, only slight rubbing on highest points. Struck on an OVERSIZE PLANCHET with unusually sharp and broad milling around edge both sides. VERY RARE . From a 1966 sale valued then at \$750; values of these early dollars have more than doubled since then, therefore this rarity should now be worth at least	1,500.00
1879.	1800 B-16, Let. T in UNITED double cut, bust & eagle fine; date, stars, LIBERTY and legend very fine. Catalogs fine \$160 and v.f. \$240, this worth	200.00
1880.	1801 B-1, Wide Date, 13 Arrows, virtually Uncirculated, only barest rubbing on highest points, pinpoint nick. Nice Sharp Strike with FULL STARS and DEEP, SHARP MILLING BOTH SIDES. A lovely specimen of this RARITY 4 coin. Small issue for year divided into 4 varieties. Catalogs low unc. at only	825.00
1881.	1801 B-3, Variety with Right Foot Of All T's missing (reverse) extremely fine.	400.00
1882.	1802 OVER 1, B-1, Narrow Date, ONLY 12 ARROWS ,extremely fine, traces of luster. RARE (Rarity 4). Much rarer than the wide overdate varieties.	500.00
1883.	1802 OVER 1, B-3, Wide date, 13 arrows, very fine. Rare (R-3). The "commonest" 1802/1 wide date (B-2) catalogs \$250, surely this rarer variety worth	300.00
1884.	1802 B-5, WIDE NORMAL DATE, extremely fine with blue patina. THIS IS THE ONLY VARIETY WITH WIDE NORMAL DATE (see Guidebook). BOLENDER LISTS IT AS EXTREMELY RARE (Rarity 6). IT IS THEREFORE ONE OF THE MOST UNDERRATED EARLY DOLLARS LISTED IN THE GUIDEBOOK! A quick check of the various sales during the past years will confirm the fact that this MAJOR VARIETY has seldom been offered. Acquired 3½ years ago at \$450; the rise in values since then should place its present value at least	750.00
1885.	1802 B-6, Narrow normal date, extremely fine with reverse very close to uncirculated, luster.	400.00

HERALDIC EAGLE DOLLARS 1798-1803 (Cont.)

1886. 1803 B-1, Small 3 with Thin Top, very close to Uncirculated with lovely PROOFLIKE surface, only slight friction evident on close examination. Bolender listed this variety as VERY RARE (R-5) but research since his book (1950) has convinced leading authorities that it is actually EXTREMELY RARE (R-6). Acquired 3½ years ago when it was valued \$500; with the rise in values of early dollars since then, this rarity should surely be worth over 750.00
1887. 1803 B-4, Small 3, ONLY 12 ARROWS, only slight wear on highest points, SHARP STRUCK STARS & DEEP, SHARP MILLING AROUND BOTH EDGES, much luster with attractive patina. Undervalued in Guidebook at its listing for unc. of only 800.00
1888. 1803 B-6, Large 3, very fine (short scratch). Catalogs 260.00

1836 NO STARS; FLYING EAGLE DOLLAR

1889. 1836 Liberty Seated Without Stars, No Drapery from elbow; FLYING EAGLE IN FIELD OF 26 STARS (States), plain edge. **THE MOST BEAUTIFUL SILVER COIN STRUCK BY U.S. BRILLIANT SLIGHTLY GOLDEN PROOF!** Variety with INVERTED REVERSE, only 600 struck March 31, 1837 (Act of Jan. 18, 1837, reduced weight and changed fineness of silver to 900) making this a "regular" coin in contrast to the usual 1836, 1,000 struck Dec. 31, 1836 with normal reverse. The normal 1836 (1,000 struck) catalogs \$1,900; the 1839 reeded edge (300 struck) catalogs \$4,000; therefore this 1836 (actually 1837) INVERTED REVERSE specimen should be worth around 3,000.00

1839 STARS; FLYING EAGLE DOLLAR

1890. 1839 With 13 Stars; FLYING EAGLE IN PLAIN FIELD, Reeded Edge, BRILLIANT SLIGHTLY GOLDEN PROOF. Choicer than most specimens of this rarity that we have seen over the years! Catalogs 4,000.00

1927.	1880-O OVER 79, from our sale 3 years ago (Jan. 1968) described "1880-O OVER 1879, BRILLIANT UNCIRCULATED, FIRST REPORTED, ALTHOUGH MANY THOUSANDS OF COINS WERE EXAMINED FOR ANOTHER! Top of 7 shows inside of 8. Valued by owner at \$500; if no more are discovered it could go to over \$5,000; if more are discovered, it could recede in value. The owner's valuation at present is probably a fair one at \$500.00" The present owner acquired it at that sale at \$370.00. We cannot find a record of any other specimen in the intervening 3 years, therefore we feel its present value should certainly be over \$750.00. If no more are discovered in the coming years, then the \$5,000 mentioned could very well materialize.
